Allowable Subject Matter

Claims 1-4 are allowed.

The following is an examiner's statement of reasons for allowance:

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Independent claims 1 and 3 particularly define the structure of a disk playback apparatus and method for such apparatus which includes access means for accessing a disk and access-control means for controlling the access means to an arbitrary position on the disk. The apparatus further includes: storage means divided into a first area for storing at least a set of audio data having a specific length for at least one track and a second area for storing remaining audio data for the one track; write means which accesss the disk for writing into the first area the audio data having the specific length and its start point in an arbitrary position on the one track; read means for reading the audio data having the specific length and remaining audio data continuously. These particulars, combined with remaining claimed elements are not suggested in the prior art.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
